2018 Mobilization Non-Hazardous Waste Disposal Documentation

**Appendix J-2
2018 Mobilization**

**Non-Hazardous Waste Disposal Documentation
Conrail Right-of-Way (AOC 1) Remedial Action Report
PPG, Jersey City, New Jersey**

This appendix includes bills of lading (BOLs) for non-hazardous wastes that were removed during soil remediation activities on Conrail Right-of-Way (ROW) (AOC 1), as part of the remediation activities on the adjacent Site 107. The total tonnage shown below may be greater than the actual amount of non-hazardous material removed solely from within Conrail ROW (AOC 1), as several excavation grids straddle Site 107 and Conrail ROW (AOC 1). BOLs included in this appendix may also include wastes generated during other site activities that are not directly related to excavation that occurred concurrently with remediation.
